Just an fyi to get closure on my involvement with Drew Landry.

Hi Drew:

The attached pdf has some background information and links to some reference documents on dispersants.
Note that this is from a public presentation and the information represents my scientific perspective, and does not represent EPA policy or opinions.

Also as an FYI, here is a link to the EPA web page for "Revisions to the National Oil and Hazardous Substances Pollution Contingency Plan; Subpart J Product Schedule Listing Requirements." There are links to the Subpart J Federal Register Notice, and the Q&As and Fact Sheet documents.

Please continue to use Ben Scaggs as your point of contact within EPA, rather than myself.
Good luck with your documentary.

Sincerely,
Mace
